### Fat Auto Muscle Injection

(South office only)

*Facial restructuring or FAMI is a process in which fat is lipoharvested from one area of the body to be placed in and around the muscles of the neck and muscles of facial expression. This procedure replaces volume that has been lost over time. This minimally invasive procedure resotres fullness of the muscles, tightens the skin, and decreases the appearance of wrinkles. Results can last as long as five years.*

### Restylane .....\$600.00 (one syringe)

*This treatment is similar to collagen. Restylane is a hyaluronic based injectable filler used to correct fine lines, deep creases, and scarring. It is also used to augment and recountour. The results can last approximately up to nine months.*

### Radiesse .....\$600.00 (one syringe)

*Radiesse is a dermal filler that contains unique calcium based microspheres that stimulate the body to produce new collagen. It goes beyond filling and correcting facial wrinkles and folds by restoring facial volume. Radiesse provides immediate, natural looking results that may last a year or more in many patients.*

### Juvederm .....\$600.00 (one syringe)

*Juvederm injectable gel replaces the hyaluronic acid your skin has lost, bringing back its volume and smoothing away facial wrinkles and folds. Juvederm is indicated for correction of moderate to severe facial wrinkles and folds such as nasolabial folds. Juvederm is the first smooth-consistency hyaluronic acid gel and the only hyaluronic acid filler that is FDA approved to last up to a year.*

### Sculptra

*Sculptra is a synthetic injectible material known as poly-L-lactic acid. It is a biocompatible (a material that does not harm the body) and biodegradable (able to be broken down by the body) product. Sculptra stimulates the production of collagen, increasing the volume of treated areas over a period of time. Results my last up to two years.*
